

Author Index

Boneh, Dan	Experimenting with Shared Generation of RSA Keys
Borrell, Joan	Practical Approach to Anonymity in Large Scale Electronic Voting Schemes
Brainard, John	Client Puzzles: A Cryptographic Countermeasure Against Connection Depletion Attacks
De Capitani di Vimercati, Sabrina	PGRIP: PNNI Global Routing Infrastructure Protection
Gilmore, Christian	Secure Remote Access to an Internal Web Server
Josang, Audun	An Algebra for Assessing Trust in Certification Chains
Juels, Ari	Client Puzzles: A Cryptographic Countermeasure Against Connection Depletion Attacks
Just, Mike	Addressing the Problem of Undetected Signature Key Compromise
Kaufman, Charlie	Secure Password-Based Protocol for Downloading a Private Key
Kormann, David	Secure Remote Access to an Internal Web Server
Lincoln, Patrick	PGRIP: PNNI Global Routing Infrastructure Protection
Malkin, Michael	Experimenting with Shared Generation of RSA Keys
Monrose, Fabian	Distributed Execution with Remote Audit
Nikander, Pekka	Distributed Policy Management for JDK 1.2
Partanen, Jonna	Distributed Policy Management for JDK 1.2
Perlman, Radia	Secure Password-Based Protocol for Downloading a Private Key
Ricciulli, Livio	PGRIP: PNNI Global Routing Infrastructure Protection
Riera, Andreu	Practical Approach to Anonymity in Large Scale Electronic Voting Schemes
Rubin, Aviel D.	Secure Remote Access to an Internal Web Server Distributed Execution with Remote Audit
Samarati, Pierangela	PGRIP: PNNI Global Routing Infrastructure Protection
van Oorschot, Paul C.	Addressing the Problem of Undetected Signature Key Compromise
Wu, Thomas	A Real-World Analysis of Kerberos Password Security Experimenting with Shared Generation of RSA Keys
Wyckoff, Peter	Distributed Execution with Remote Audit
