

INTERNET SOCIETY

2004 ANNUAL REPORT

STRENGTHENING THE INTERNET COMMUNITY THROUGH EDUCATION, POLICY, STANDARDS, AND MEMBER ACTIVITIES

OUR VISION

The Internet Society believes that the Internet is for everyone.

From its inception the mission of the Internet Society has been to promote the open development, evolution, and use of the Internet for the benefit of all people throughout the world.

People in all parts of the world can use the Internet to improve their quality of life because the standards, technologies, business practices, and government policies connected with the Internet sustain an open universally accessible platform for innovation, creativity, and economic opportunity.

Complementing its vision of the future is the Internet Society's vision of its role in creating that future: As the hub of a global network of individuals and organisations, the Internet Society is an effective advocate for the core values of an open and accessible Internet.
